

# Physiocracy, Antiphiysiocracy and Pfeiffer

By -

Springer-Verlag New York Inc. Paperback. Book Condition: New. Paperback. 184 pages. Dimensions: 9.2in. x 6.1in. x 0.4in. Physiocracy, or the economic theory that a nation's wealth comes from is agricultural and land development, was a popular school of thought in France in the 18th century. The contribution and significance of the Physiocrats and Antiphiysiocrats are explored in detail through chapter contributions by economists, philosophers, and social historians. The book concludes that neither the Physiocrats, nor the Antiphiysiocrats were pure profit maximizers and that they all had the well-being of the commonwealth in mind. It brings to light previous studies only conducted in German and is the first analysis of Pfeiffer in a century, making the book of interest to any student or scholar of political economy and the history of economic thought. The contribution and significance of the Physiocrats and Antiphiysiocrats are explored in detail through chapter contributions by economists, philosophers, and social historians. ## Reviews

*This ebook might be worthy of a read, and far better than other. it was writtern really flawlessly and useful. I found out this pdf from my i and dad recommended this ebook to learn.*

-- **Prof. Ruben D'Amore PhD**

*This book will be worth getting. Better then never, though i am quite late in start reading this one. Its been written in an extremely basic way which is only right after i finished reading this book through which actually altered me, alter the way i believe.*
