The Summation of Elohim (Paperback)

By Deick Conrad Williams

iUniverse, United States, 2011. Paperback. Book Condition: New. 216 x 140 mm. Language: English . Brand New Book ***** Print on Demand *****. God made the universe simplistic; man made the understanding of the universe complicated. The modern world has so many theories-so many voices expounding on how the universe began, how it works, and how it may end-it's no wonder there is mass confusion that can end in miscommunication, hatred, and war. On deeper examination of the facts, however, we find that all these theories and voices have more in common than they believe. In *The Summation of Elohim*, author Deick Conrad Williams simplifies and unifies societal beliefs of science and spirituality-the beliefs of our civilization-and shows how understanding our universe on a new level helps us understand our relationship to God, to each other, and to ourselves. Williams, a philosopher and mathematician who has devoted his life to studying the workings of the universe through the lens of numerous disciplines, first explores the universe's beginnings, the advent of humanity, and how organized religion allowed civilization to flourish. Then, with minimal mathematical equations and ample analogies to modern life, Williams offers fresh, valuable insights on the algorithms...
