

Expert Advisor Programming for Metatrader 5: Creating Automated Trading Systems in the Mql5 Language (Paperback)

By Andrew R Young

Edgehill Publishing, United States, 2013. Paperback. Book Condition: New. 252 x 202 mm. Language: English . Brand New Book ***** Print on Demand *****.The first guide to programming in MQL5 is here! Expert Advisor Programming for MetaTrader 5 is a practical guide to creating automated trading strategies in the MQL5 language. Take advantage of MetaTrader 5's new features and take your trading to the next level! You'll learn how to program expert advisors quickly and easily using a ready-made framework created by an experienced MQL programmer. This book will teach you the following concepts: Learn the basics of MQL5, including variables and data types, operators, functions, event handlers, and object-oriented programming. Place, modify and close market and pending orders. Calculate, verify and add stop loss and take profit prices to an open position. Add a flexible trailing stop and/or break even stop to your strategy. Manage your trade risk with money management. Use pending orders to scale in and out of positions. Use price, time and indicator data in your expert advisors. Control program execution by trading on new bar open, and add flexible trade timers to your strategies. Walk through the creation of several basic trading strategies...
